

Reports and Publications Overview

Below you will find an overview of the reports and publications on biodiversity related subjects in the Dutch Caribbean that have recently been published.

"Duijndam, S., Fralikhina, H., Molenaar, A., Beukering, P. van. (2019).
[Better environmental management of the Simpson Bay Lagoon pays off For the environment, society, and the economy. EPIC policy letter"](#)

"Gillett, M.P.T., Gillett, C.PDT. (2019).
[Nemocephalus monilis \(Fabricius, 1787\) \(Coleoptera: Curculionoidea: Brentidae\), an Apparently Recent Arrival and Effective Colonizer of the Oceanic Island of Saba, Dutch Caribbean, The Coleopterists Bulletin 73\(4\), 871-874, \(19 December 2019\)."](#)

"Madden, H. (2019).
[Reproductive performance, mate fidelity and nest cavity fidelity in Red-billed Tropicbirds Phaethon aethereus mesonauta on St. Eustatius, Caribbean Netherlands. Ardea 107: 227–237. doi:10.5253/arde.v107i3.a2"](#)

"Ministry of Agriculture Nature and Food Quality (2019).
[10th Meeting of the Fisheries Commission BES. Saba, December 17th, 2019. Open Summary of the Meeting'](#)

"Korzhavina, O.A., Hoeksema, B.W., Ivaneknk, V.N. (2019).
[A review of Caribbean Copepoda associated with reef-dwelling cnidarians, echinoderms and sponges. Contributions to Zoology 88 \(3\)"](#)

"Ritger, A.L. et al. (2020).
[Diet choice in a generalist predator, the invasive lionfish \(Pterois volitans/miles\). Journal of Experimental Marine Biology and Ecology 524:"](#)

"Walker, B. 2019.
[SE FL ECA Reef-building-coral Disease Intervention and Preparation for Restoration: Progress Report. Florida DEP. Miami, FL., 52p."](#)

"WWF and Centre for Sustainable Tropical Fisheries & Aquaculture (CSTFA) (2019). A Practical Guide to the Effective Design and Management of MPAs for Sharks and Rays"

"Mac Donald, S. (KITLV/MAC & FIELD) in assignment of WWF-NL (2019)
[Roadmap towards effective fisheries management of the Caribbean Netherlands"](#)

"Mac Donald, S. (KITLV) in assignment of WWF-NL (2018)
[Mas Piska pa Boneiru: A social mapping study of the fisheries sectors of Bonaire, Saba and St. Eustatius"](#)

"Mac Donald, S. (KITLV) in assignment of WWF-NL (2019)
[Policy Letter: Creating effective, sustainable fisheries management in the Caribbean Netherlands"](#)

Student report:

" Petzold, S. (VU) in assignment of WWF-NL (2019).
[An analysis for the potential implementation of co-management in the fisheries of the Caribbean Netherlands"](#)

These reports and publications can be found in the Dutch Caribbean Biodiversity Database (DCBD) (<http://www.dcbd.nl>). The DCBD is a central online storage facility for all biodiversity and conservation related information in the Dutch Caribbean.

If you have research and monitoring data, the DCNA secretariat can help you to get it housed in the DCBD. Please e-mail us: research@DCNAnature.org
